SG pipettes without bulbs (bulbs sold separately):

SG Pipette, sterile, pack: 5x10 pipette - 50 pipettes in a pack

Denudation Pipettes – sharp tip

Short version – functional part is 14 mm long

SG-130S-50	inner Ø 130µm, red
SG-140S-50	inner Ø 140µm, green
SG-145S-50	inner Ø 145µm, green
SG-150S-50	inner Ø 150µm, white
SG-160S-50	inner Ø 160µm, white

Denudation Pipettes – sharp tip

Long version – functional part is 29 mm long

SG-130L-50	inner Ø 130µm, red
SG-140L-50	inner Ø 140µm, green
SG-150L-50	inner Ø 150µm, white
SG-160L-50	inner Ø 160µm, white

Manipulation and Blastocyst Transfer Pipettes – polished tip

SG-180-50	inner Ø 180µm, yellow
SG-250-50	inner Ø 250µm, blue

Oocyte Vitrification Pipettes – polished tip

SG-140P-50	inner Ø 140µm
SG-150P-50	inner Ø 150µm

Classic Bulbs

Bulbs - sterile, 4x5 pcs, sealed in a blister pack by 5 pieces, color may be used to indicate the diameter

A. XtraSoft

SG-012-20XG	green
SG-012-20XY	yellow
SG-012-20XB	blue
SG-012-20XR	red
SG-012-20XW	white

B. Soft

SG-012-20SG	green
SG-012-20SY	yellow
SG-012-20SB	blue
SG-012-20SR	red
SG-012-20SW	white

VI Bulbs

Bulbs with reduced inner volume - sterile, 4x5 pcs, sealed in a blister pack by 5 pieces, color may be used to indicate the diameter

SG-VI-20XG	green
SG-VI-20XY	yellow
SG-VI-20XB	blue
SG-VI-20XR	red
SG-VI-20XW	white

Accessories

SG-007-CUT-R	SG Cutter. Storage of unopened sealed pipettes and the cutter tool to be attached to the right side wall of the IVF cabinet
SG-007-CUT-L	SG Cutter. Storage of unopened sealed pipettes and the cutter tool to be attached to the left side wall of the IVF cabinet
SG-011-1	SG Rack. For storage of up to 6 opened pipettes with bulbs in the working area in horizontal or vertical position
SG-021-3	SG Pen Holder VI – holding pen for VI bulbs
SG-021-4	SG Pen Holder C – holding pen for classic bulbs

II. Premounted system - bulb&pipette

SG Pipette pack: 4x5 pipette with bulb attached, blister sheets of 5 pipettes, 4 in a box, sterile single packed

A. Classic Bulb - short

SG-130S-20X-BL	inner Ø 130µm, red bulb, short pipette
SG-130L-20X-BL	inner Ø 130µm, red bulb, long pipette
SG-140S-20X-BL	inner Ø 140µm, green bulb, short pipette
SG-140L-20X-BL	inner Ø 140µm, green bulb, long pipette
SG-150S-20X-BL	inner Ø 150µm, white bulb, short pipette
SG-150L-20X-BL	inner Ø 150µm, white bulb, long pipette
SG-180-20X-BL	inner Ø 180µm, yellow bulb, short pipette
SG-250-20X-BL	inner Ø 250µm, blue bulb, short pipette

B. VI Bulb

SG-120S-20XVI-BL	inner Ø 120µm, red bulb, short pipette
SG-120L-20XVI-BL	inner Ø 120µm, red bulb, long pipette
SG-130S-20XVI-BL	inner Ø 130µm, red bulb, short pipette
SG-130L-20XVI-BL	inner Ø 130µm, red bulb, long pipette
SG-140S-20XVI-BL	inner Ø 140µm, green bulb, short pipette
SG-140L-20XVI-BL	inner Ø 140µm, green bulb, long pipette
SG-150S-20XVI-BL	inner Ø 150µm, white bulb, short pipette
SG-150L-20XVI-BL	inner Ø 150µm, white bulb, long pipette
SG-180-20XVI-BL	inner Ø 180µm, yellow bulb, short pipette
SG-250-20XVI-BL	inner Ø 250µm, blue bulb, short pipette

Accessories

SG-31-1	SG Magazine. Storage of premounted pipettes with bulbs, to be attached on the wall of IVF cabinet
